

BUVOCA AND PARTNERS PROJECTS

Project	Location and details	
Water desalinazation purification	India	Won the tender: Volume: 150K m3/day Outcome: standard “fish” water <hr/> MOU is signed for another 300 plants with lower volumes.
	Similar projects have been accomplished or are in the process in the USA, Indonesia, Russia, South Korea, Paraguay, Kazakhstan and more.	
Biomass (MSW) to Power	Austria	3 MW/hour
	UK	25 MW/hour
	Poland	8 MW/hour
Sewage Sludge Treatment Facility	Russia Ukraine	
Clean Oily Contaminated Soil	Canada Russia	
Organic and Mineral Fertilizers	Ukraine Israel	
Greening of Arid Lands	Israel	
Mini-refinery	Middle East Mexico	1000 ton/day crude oil input
Waste processing based on Thermolysis	Germany, Leverkusen	6000 tons of medical waste and sewage sludge
	Germany, Burgau	36,000 tons of waste types RDF (reactor and technology)
	Germany, Dresden	18,000 tons of waste, paper mill (full construction)
	Germany, Jena	60,000 tons of waste types RDF (reactor + technology)
	Germany, Hamburg	120,000 tons of waste types RDF (reactor + technology)

and many other projects throughout the globe.
